Installation manual for
dnp Supernova Infinity Screen
dnp Supernova Infinity Screen

Important Safety Instructions

Do not ignore the warnings!

Ignoring below mentioned warnings can cause personal injury or material damage.

> Follow all instructions carefully. Incorrect installation can lead to severe injury and invalidate the dnp warranty.
> Keep these instructions.
> Make sure that the ceiling or wall is capable of carrying the load from the Supernova Infinity screen in the desired place.
> Use the enclosed gloves when installing the screen.
> Use suitable fastening material and use all mounting points.
> Be sure that the screen is mounted correctly and securely to respectively wall, ceiling or floor stand.
> Handle screen panels with care. The edges of the screen panels are somewhat sensitive.
  Be especially careful not to damage the corners.
> Mount the panels directly from the transportation crate.
> Ensure screen panels are properly positioned and held securely in place.
> Use the fallout protection brackets as precautionary measure to prevent screen panels to fall out.
> Do not push, pull or tug the screen when mounted.
> Keep away sharp objects in order not to scratch the screen.
> Operate within specified temperature and humidity range.
> Keep away from rain and direct sunlight.
> Follow cleaning instruction when cleaning screen.
